

Raptivity Presenter

Add Interactivity to Make Your Presentations Expressive

Raptivity Presenter helps you create meaningful and expressive interactions for your presentations quickly and easily.

With Raptivity Presenter, you can create interactivity rapidly and add it conveniently to your presentations. With interactivity, you can deliver compelling and convincing presentations by understanding the needs and interests of your audience through meaningful conversations. It also helps you render complex information in a simple story-telling way. You can also dynamically change the flow and content of your presentation to suit your audience requirements.

Raptivity Presenter Benefits

- Raptivity Presenter provides the strong pre-built library over a dozen rapidly-customizable interaction models that engage your audience through active participation.
- The output of Raptivity Presenter is a single Flash file which is easily embedded in PowerPoint.
- Raptivity Presenter allows complete customization of each interactivity

Raptivity Presenter Features

- Raptivity Presenter interaction models library is organized in packs. The Essential pack provides over a dozen interactions. It helps present content in an engaging, compelling and convincing way. It provides variety of interactions which are most commonly used to infuse interactivity in PowerPoint.
- With support to Unicode languages, presenters can create interactivity in non-English languages.
- Raptivity Presenter provides a variety of pre-defined color themes. Presenters can apply any of the themes to the interactivity and transform it into a new attractive look.
- A sophisticated editor, which employs an innovative four-way customization interface, is included for customization of interactivity.
- The wizards, forms and templates make Raptivity Presenter easy to master. Raptivity Presenter provides complete control over the content, look and feel of interactivities, while maintaining its ease of use.
